

# GARRETT® METAL DETECTORS

International Buyer's Guide

ACE  
**APEX™**  
MULTI-FREQUENCY  
METAL DETECTOR

**Z-Lynk**  
WIRELESS

Proudly Made in  
the USA

**MULTI-FLEX™**  
MULTI-FREQUENCY TECHNOLOGY

**THE POWER OF CHOICE IS YOURS WITH THE NEW GARRETT ACE APEX**

# ACE APEX™

MULTI-FREQUENCY  
METAL DETECTOR

*TIME TO ELEVATE*

**LIGHT WEIGHT.  
BROAD COVERAGE.  
EXCELLENT TARGET SEPARATION.**

**NEW 6" x 11" DD VIPER™**  
searchcoil and Viper  
coil cover included

**VIPER™**  
MULTI-FLEX™  
SERIES COIL

- The best attributes of two of Garrett's most popular DD coils have been blended into one with the *Viper*.
- 11" size is large enough to cover plowed fields, but its narrow 6" footprint allows you to easily separate targets in trashy, iron-infested areas.
- *Viper* searchcoil is fully waterproof. *Apex* control box is fully rainproof.
- Designed as a low impedance, broad-bandwidth coil to support the new *Apex Multi-Flex* frequency technology.

(left) U. S. field tester George "KG" Wyant of Kansas found this 1943 silver Walking Liberty half dollar during one of his first Apex hunts.

(right) Wesley C. of Texas made several great finds in his first hunts with the ACE Apex. This included two tax tokens, two silver quarters, a 1901 silver Barber dime, a silver ring, a 19th century bullet, and a 1944 nickel.

# YOUR DETECTING TO THE NEXT LEVEL

Apex is the pinnacle of affordable flexibility in single and simultaneous multi-frequency detecting technology!

## THE POWER OF CHOICE IS YOURS

# APEX

**MULTI-FLEX™**  
MULTI-FREQUENCY TECHNOLOGY

### APEX FREQUENCY OPTIONS:

- 5 kHz
- 10 kHz
- 15 kHz
- 20 kHz
- Multi-Frequency
- Multi-Frequency Salt

**COMPLETE FLEXIBILITY** is the name of the game. Garrett's Multi-Flex technology, fueled by a cutting edge, broad-bandwidth digital platform, simply gives you more versatility with the Apex than can be found on any detector in its price range!

Choose from powerful single frequencies to enhance detection on certain types of targets\*, or select one of Apex's simultaneous multi-frequency modes to achieve excellent detection on all targets in all soils.

### 8 CHANNELS PER FREQUENCY

Apex has eight independent frequency shifts, or channels, for each single and multi-frequency. That's 48 different frequency settings—giving Apex greater ability to hunt alongside other detectors at crowded rallies and to overcome electrical interference.

*\* Note: lower frequencies generally offer improved detection on larger and more conductive targets (i.e. large silver coins). Higher frequencies generally offer improved detection on smaller and less conductive targets (i.e., hammered silver coins, gold nuggets).*

# ACE APEX

PN: 1142320

Standard Package:

Includes Apex metal detector and Viper coil cover.

PN: 1142325\*

Includes Apex metal detector, MS-3 Z-Lynk wireless headphones, and Viper coil cover.

*(Big savings over buying MS-3 separately)*

Excellent detection depth on a wide variety of targets.

6" x 11" searchcoil  
cover included  
PN: 1613100

Z-Lynk MS-3 Wireless  
headphones  
PN: 1627710  
\*included with PN: 1142325

## SIMPLICITY...WITH ENHANCED CONTROL

- **INTUITIVE AND EFFICIENT CONTROLS**

Direct drive buttons for most frequently used controls. Easy-access menu adjustments for other controls.

- **LARGE TARGET ID NUMBERS**

Oversized Digital Target ID numbers, offering target conductivity/identity, can be easily read with a quick glance.

- **HIGH-RESOLUTION DISCRIMINATION**

Twenty pixels of Notch Discrimination, including eight pixels of Iron. Create any custom detection pattern you wish.

- **5-TONE AUDIBLE TARGET ID**

Five distinct tones provide greater audible target identification than on previous Garrett detectors.

- **FAST TARGET RECOVERY SPEED**

The Apex's quick reactivity provides increased ability to hear good targets mixed in amongst trash.

- **HYBRID AUDIO SYSTEM**

The Apex target audio provides the simplicity of binary audio (found on existing ACE detectors) with the additional benefits of subtle proportional audio (found on Garrett detectors like AT Max) for faint targets.

- **IRON VOLUME**

Allows user to decrease the volume of iron targets, while the volume of non-ferrous targets remains at normal level. Experienced treasure hunters often like hearing all targets, but will now appreciate the option to decrease the volume of those undesired items. With eight Iron Volume adjustments, Apex offers more flexibility than any other detector in its price range.

- **VOLUME CONTROL**

Controls overall volume in both the built-in speaker and headphones.

SPECIFICATIONS	
Multi-Flex™ Technology	✓
Single Frequency Options	5, 10, 15 and 20 kHz
Multi-Frequency Options	Simultaneous Multi-Freq. and Multi-Freq-Salt
Z-Lynk™ Wireless (integrated)	✓
Fast Target Separation/Recovery	✓
1/8" Headphone jack	✓
Backlight	✓
Ground Balance, Auto	High Resolution, 175 pts
Iron Audio™	✓
Iron Volume Control	✓
Iron Discrimination Segments	8
Volume Control	✓
Pinpointing	✓
Water/Weather Resistance	✓
• Waterproof coil/stem	✓
• Rainproof control box	✓
Search Modes	6, with International and U.S. Coins modes
Large Digital Target ID	0 to 99 scale
Audio Tone ID Levels	5 tones included with hybrid binary and proportional audio system
Notch Discrimination	20 selectable segments
Sensitivity/ Depth Adjustments	8
Target Depth Indicator	2" / 5cm segments
Standard Searchcoil	6" x 11" DD <b>Viper™</b>
Length (Adjustable)	40" to 53" (1.016m - 1.35m)
Total Weight	2.5 lbs (1.13 kgs)
Battery Source	Rechargeable Lithium Ion, built-in
Battery Condition Indicator	✓
Warranty	2 Years, Limited Parts/Labor

northtexasmetaldetecting

Early field tester Miguel A. discovered this monogrammed gold plated cufflink with the ACE Apex.

## THE POWER OF CHOICE IS YOURS...

Multi-Flex Multi-Frequency Technology makes the ACE Apex ideal for coin shooting, relic hunting, shallow water wading, beach hunting, and even prospecting.

(above) Steve Moore seen field testing the Apex in shallow water, searching for Texas relics.

(left and below) This silver Standing Liberty quarter (1916-1930) was found by Steven W. of Texas while testing the ACE Apex at an East Texas early home site.

Patents Pending

## TREASURE FOUND BY GARRETT ACE USERS

From scenic mountaintops above an ancient village to an old homesite, Garrett ACE users have unearthed some truly amazing finds. No matter where you search, you can put your trust in Garrett's ACE detectors to help you discover your own treasures.

Finder: Donald R., Florida  
Using: ACE 300  
Find: Two-ring bridal set and a .925 silver ring

Finder: Drew M., United Kingdom  
Using: ACE 400i  
Find: Early Bronze age long flanged axe head, circa 1750–1550 BC

Finder: Jasja H., Europe  
Using: ACE 300i  
Find: 1704 silver gulden

Finder: Josh E., Florida  
Using: ACE 300  
Find: 1857-O Seated Liberty half dime

Finder: Miguel A., Texas  
Using: ACE 200  
Find: World War II-era military hat badge

Finder: Lucien L., Europe  
Using: ACE 300i  
Find: 170 World War II-era German Iron Crosses

Finder: Michael B., North Carolina  
Using: ACE 400  
Find: Five Silver dimes and a silver ring

Finder: Joe D., United Kingdom  
Using: ACE 400i  
Find: 3rd century hoard of 1,377 Roman coins

Relic hunter Steve Moore's finds with his ACE 400 include this Civil War-era Virginia state button (left) and a World War II German Infantry Combat badge (right).

Finder: Steve E., United Kingdom  
Using: ACE 400i  
Find: Roman headstud brooch, circa 1st century AD

Finder: Eric S., New Jersey  
Using: ACE 400  
Find: 1787 New Jersey colonial copper coin

Finder: Chris O., New York  
Using: ACE 400  
Find: 1902 silver Barber quarter

Finder: Dejan S., Europe  
Using: ACE 300i  
Find: Silver Celtic coin, circa 2nd century BC

Finder: Kristoffer J., Europe  
Using: ACE 400i  
Find: Collection of modern coin finds

Finder: Simon M., United Kingdom  
Using: ACE 400i  
Find: 1421 Henry VI gold noble coin

Finder: Glenn W., Missouri  
Using: ACE 300  
Find: 14k gold ring with 16 diamonds

Finder: Laura H., United Kingdom  
Using: ACE 300i  
Find: 1881 silver florin

Finder: Eddy F., California  
Using: ACE 400  
Find: Military badges and buttons
