

ACETM 400*i*

PN: 1141560
batteries included

FREE ACCESSORIES:

(included with purchase)
Garrett ClearSound Easy Stow
Headphones, ACE Environmental
Cover-Up, and searchcoil cover

A TRUE TOP-SELLING PERFORMER

8.5" x 11" PROformance™
DD searchcoil included

See pg. 14 for interchangeable ACE searchcoils.

ALL PURPOSE VERSATILITY

With Digital Target ID and Iron Audio, the ACE 400i is powerful on coins, jewelry, and artifacts!

• Iron Audio™

Allows the user to hear discriminated iron (normally silenced) to avoid digging tricky, undesired flat iron objects (i.e. bottle caps, steel washers) and to alter the detector's mid-tone signal's range.

• 10 kHz Frequency

Higher frequency provides better sensitivity on low and medium-conductivity targets (i.e. gold, lead).*

• Digital Target ID

Numeric scale from 0 to 99; indicates a target's conductivity for increased ability to distinguish targets from each other.

• Pulse Width Modulation Audio

Provides sharp, responsive target signals.

• Enhanced Iron Resolution™

Increased resolution (more pixels*) allows more precise control of how much iron discrimination to apply. This feature is particularly useful in areas where desirable treasure targets are being masked by iron trash.

• Adjustable Frequency

Helps eliminate or minimize interference caused by electrical sources or by other metal detectors.

• Notch Discrimination

Modify discrim patterns for what you seek.

Other features:

- **Pinpoint** This non-motion All-Metal function is used to precisely locate a detected target in the ground.

- **Camlocks** for increased stem stability.

- **Eight (8) Sensitivity/Depth Adjustments**

- **Five Search Modes plus Pinpoint**

- **One-Touch™ Treasure Hunting**

With one touch of a button, your detector is: powered on; automatically reset to factory (or your) settings; and ready to search!

- **Three FREE accessories included with purchase!**

More Info: Continuous coin depth indicator to help determine target depth. Battery condition indicator. Graphic Target Analyzer identifies target's conductivity. Can be disassembled into three pieces for storage / travel.

* Compared to previous ACE 350 model.

**Shown with optional Z-Lynk wireless kit*
